Ryan Farr, Attorney for Sheridan Lake Water District pled his case as to the need of a new well for the Town of Sheridan Lake and some of the outlying area. He explained the uranium level was too high in the current water levels and therefore they need to drill a new well drawing from the Dakota Aquifer to blend with the present water from the Ogallala Aquifer.

Mr. Farr went on to explain it is the funding piece that has led them to apply to become a district. Farr said this would be in the best interest for the Sheridan Lake community. Farr said there was already \$850,000 committed to the Water District if they are able to become a district.

Farr said he felt he had presented sufficient evidence for the need of water as the present water is inadequate according to state regulations.

Farr allowed the audience to speak and no one present was in opposition of forming a special district.

Farr asked the Kiowa County Commissioners to please consider adopting Resolution 2016-2 for the Sheridan Lake Water Company to become a special water district.

The Public Hearing ended at 7:47 p.m.

NOTE** A copy of the Public Hearing and Special Meeting minutes are being kept in the County Clerk's Office.
